PRELIMINARY AMENDMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

This is a Preliminary Amendment for entry in the above-identified application.

In the Specification:

Please add the attached Abstract to the specification.

In the Claims:

Please amend the claims as follows:

1. (amended) Mechanism for adjustment of hinged elements that planned to be applicable in the angular adjustment of a movable or hinged item with respect to a fixed structure or item, such as could be the armrests or a car, distinctive because it is essentially formed by two discoidal parts mounted on a common axle, the parts each being equipped with opposing cogs that tend to engage permanently with each other; being intended that the discoidal
